The right of the District to control-the matter as involved in the intricate provisions of a gized deal of past legislation, all of which was gone over by Gen. bitney and Gov. Ordway, representatives of the Market Company.

The ground adjacent was originally acquired by the campany, but was airerwords ceded to the District at a time when it was proposed to erect a manacipal building at that point, and the space in controversy was made a passageway for the continue of the company and the District.

Neither has ever occupied it as such passageway, and the contention of the company is that its rights should not now be abridged, since the public is not entitled to the ground.

Historing to the Capitol, Mr. Morrill made an investigation, and finding that there was no appropriation at that time available, he at the introduced a joint resolution forbidding the further prosecution of the work.

cution of the work.

This was respect through and Gov.
Shepherd's purpose was defeated.

This is to brief the story of the transaction as related by Gov. Ordway this morning, who claimed that the right to use the space for any legitimate purpose is still vested in the market company, and that in creating the stairway no rights are infringed upon.

Many of the improvements on the reser-ration, he said, had been paid for by the market company, and the expense of fil-ing up the holes made by the excavations ander "Bass" Snephera's order, was borne

by the company.

Gen. Birney appeared at the bearing as counsel for the company, and Attorney Thomas was present for the District.

Judge Jackson's Death Caused a Shifting on the Bench.

SUPREME COURT IN SESSION

Owing to Mr. Cleveland's Absence the Court Remained in Session, Contrary to Its Usual Costom—Death of Their Late Colleague Alluded to in Chief Justice Fuller's Address.

The Supreme Court convened to-day for the October term, 1895. All the surveiving justices were present. The death of Justice Jackson caused a slight rearrange ment of the sittings on the bench, Mr. Justice White taking the deceased justice's place at the extreme right of the Chief Justice. This brought together Justices Gray, Brown, and White.

MR CLEVELAND'S ABSENCE.

The court, however, on assembling found that President Cleveland was still absent from the city, so that the ceremony of calling upon him on the day of meeting had to be omitted for the second time during his Presidential tenure.

Among the prominent members of the Supreme Court bar present were Secretary of State Olney, who came to present his successor as Attorney General, Mr. Harmon, to the court; Hon. Don M. Dickinson and Col. Henry M. Duffield, of Detroit; also the staff of the Attorney General's office, headed by Solicitor General Conrad, and Hon. J. A. Tawney, of Minnesota. When the justices had taken their seats Chief Justice Fuller said:

#### The Safest and Best Field for Investment.

Capital is always seeking safe and profitable investment—the most inviting field to-day is cotton manufacturing in the South. There is probably no well-managed mill in the South that is earning less than 10 per cent not profit, and most of them are doing much better. Very many are earning from 31 to 25 per cent.

In the face of the general depression of the last few years, this is a phenomenal record for any investment.

At present there are \$5,000,000 cotton should now shipped from 1,600 to 3,000 miles to mills in New Mile it has only 3,000,000 spindles, or about 4 per cent of the total number in the world. The South souther and where living is expensive. The tendency of this industry is now southward, because of the unequalied advantages of this section. No other industry promises such sure and certain returns on the investment. The Newport News Cotton Manufacturing Co.

Offer to investors, both to large and small (and, indeed, particularly to small) investors, an opportunity which promises the most profitable returns.

The Newport News Cotton Manufacturing Company is organized on the co-operative plan, with an authorized capital of \$500,000; par value of the shares \$100, payable \$2 per share at the time of subscription, and \$2 per share monthly until paid.

It has general offices at Richmond, Va., and the most prominent business men of that city are its stockholders and officers.

M. B. CROWELL, Goneral Agent Old Dominion S. S. Company, Director First National Bank, Newport News, Va.

S. G. WALLACE, Cashier Citizons' Bank of Richmond, Richmond, Va. Newport News as a Location. There is probably no better location in the United States for a cotton mill than Newport News. The population of the town is about 10,000, while at Hampton and surrounding points there are about 10,000 more, thus furnishing an abundant supply of good operatives. Newport News being one of the largest coal scripping points in the United States, the best steam coal can be had at a minimum cost, west Virginia coal can be had down at less than \$2.69 a ton against \$1.00 a ton which is paid by many of the most successful mills in North Carolina. Its location furnishes abundant transportation facilities by which to draw cotton by water from all Southern points, as well as for shipment of the distated product to any part of the world.

An Opportunity for Small Investors.

Heretofore small investors have not generally been able to share in the large profits made by cotten mills; building associations and savings banks have been their only means for accumulating savings. By this system, so successfully introduced into the South, everyone also can lay aside even \$2.00 a month can become a stockholder in a cutton-mill. As funds accumulate under this system of monthly payments, the contracts for the buildings and machinery can be let, without waiting until the final installments are paid TION.

Opinions of Leading Financial Men

on Cotton Milling in the South.

W. S. Witham, of Atlanta, who is president of twelve banks in Georgia and Alabama: "The average net earnings of several cotton mills I am acquainted with will run to about 14% per cent." I believe a cotton mills. If an acquainted with will run to about 14% per cent. "I believe a cotton mill, with a fair working capital, well managed, will make from 25 to 35 per cent. I know of one which goods in storage, at a less rate than on any other collateral."

A. I. James. President of the Bonk of Laurinburg, Laurinburg, N. C.: "There are eight mills in this county. The profit during this year in the cetton mills business has been and is still very large; that is, it is from 10 to 35 per cent. I know of nothing else in our section that pays so large a profit.

J. G. Rhee, Cashier City National Bank, Griffin, Ga: "The Griffin Manufactur ing Company in 18% pabl a 5 per cent dividend; in 18%, 10 per cent; and has sicudity paid 10 per cent dividends ever since, and still carries a aurphus of over 80 per cent added to this capitaleut of the searnings. In 1894, the Kincad Mill was organized and put in operation. In 1891 it paid 6 per cent; in 1894, 7 per cent; in 1894, 8 per cent; in 1894, 7 per cent; and in 120, it has so far paid 10 per cent."

W. C. and Lauter, Bankers, West Point, Ga. who alse control cotton-mills with an aggregate investment of about \$1,000,000: "The capital stock of our mills aggregates \$1,000,000. Our pay rolls aggregate \$25,000, and about 100,000 or paid out to stockholders, besides laying up a surplus for extensions."

L. C. Havne, president National Bank of Aurusia. Augusta, Ga.: "Cotton manufacturing 10 the South has always proven satisfactory as a paying industry, and from the establishment of the first cott in factory to the present time the smills have not only proven the wasdem of investors, but have demonstrated the levitable conclusion that no character of investment is safer, and few, if any, are more profitnile."
